<b>TOTAL MAJOR UNITS</b>	<b>30*</b>
Cal-GETC Requirements	34
Double Counting GE	-
Elective	-
<b>Total Units</b>	<b>60</b>

\* All units are based on the semester and indicated minimum units. The major must be a minimum of 18 semester units.

## NOTES AND HISTORY

CSU GE Breadth requires:

One course (3 semester units) each from A1, A2, and A3 = 9 units

One course (3 semester units) from B4 = 3 units

Two courses (6 semester units) from D = 6 units

One course (3 semester units) from E = 3 units

---

Minimum 18 semester units from the Core units would "double-count".

## Response to Vetting

As is often the case, many of the responses related to local issues and often did not seem to appreciate the fact that the TMC provides a framework that allows for many decisions to be made at the local level. It was also clear that reviews of the developed descriptors may not have been thorough. Both of the new descriptors are intended to be general enough to work for a wide array of courses. LPPS 110, for example, was developed to work for a variety of existing courses, including the "street law" courses that are a part of many of the "Pathways to Law School" programs already in existence. And LPPS 120 seeks to provide a descriptor that would

be consistent with various ethics courses – but does not intend to replace the descriptor that already exists for a traditional philosophy ethics course (C-ID PHIL 120).

In response to the vetting, AJ 122 (Criminal Court Process) was added to Area 1 of the Core. In addition, the indicated GE applicability of the various communication courses in the Core was reviewed and confirmed to be appropriate. C-ID SOCI 160 was added to the first area in List A as it was deemed to be an appropriate option and SOCI 140, Introduction to Gender, was added to the Diversity section of List A. Again, whether or not these options are selected is a matter of local control. Because some colleges may have a lower division public administration or public policy that would be appropriately included, this option was added to the Public Policy component of List A.

In order to demonstrate the versatility of the TMC, the following examples are provided as a means of demonstrating that local ADT development can opt to emphasize or de-emphasize aspects of the TMC. All specifically named sample courses were obtained from the CCC Curriculum Inventory.
