

Transfer Model Curriculum 5-Year Review Summary - Chemistry

January 21, 2026

Summary of Statewide Vetting Feedback

Please attach a copy of the vetting results for the TMC to the document.

1. Provide a breakdown of the respondents to the survey:

- # of CCC respondents: 74
- # of CSU respondents: 2
- # of UC respondents: 0
- Total responses:

If applicable, please provide a summary of the feedback received and the FDRGs response for each area below.

2. Provide a response to the survey feedback on the TMC required core. Describe any changes suggested to the CORE of the TMC.

FDRG recommends: Allowance of 6 additional units. See below.

In light of new limitations on partial certification created as part of the transition to Cal-GETC, the Faculty Development Review Group (FDRG) acknowledges that the existing Transfer Model Curriculum (TMC) for Chemistry will require formal approval for the additional 6 units that it was originally allowed under AB 928: The Student Transfer Achievement Reform Act of 2021. Without this allowance, all current ADTs in Chemistry will no longer be in compliance.

The FDRG in Chemistry recently worked in coordination with discipline input groups that included faculty representatives from both UC and CSU institutions to develop a revised Chemistry TMC for Cal-GETC that would facilitate student transfer to either UC or CSU campuses, but this revision was ultimately not supported by decision makers external to the discipline. Therefore, in hopes of maintaining some pathway forward for students, the FDRG seeks confirmation that the existing TMC be granted approval. The existing TMC includes the allowance of 6 additional units, reflecting the reality that Chemistry transfer students are required to complete the specified courses as part of their major preparation, and in accordance with AB 928's mandate to provide transfer pathways for high unit count majors.

3. Provide a response to the survey feedback on List A of the TMC. Describe any changes to the List A section of the TMC.

N/A

4. If applicable, provide a response to the survey feedback on List B of the TMC. Describe any changes to the List B section of the TMC.

N/A
